Dires

dires7481@gmail.com | Injibara, Ethiopia | github.com/DiresGobale | t.me/diresfromGondar

PROFESSIONAL SUMMARY

Fourth-year Information System student at Injibara University with a passion for building real, working software. Skilled across the full web stack (React, Next.js, Node.js, Express, PostgreSQL, MySQL), mobile development with Flutter, and UI/UX design in Figma. Shipped 4+ coursework projects including an AI-powered employee recommendation system. Open to internships and junior full-stack or Flutter roles.

EDUCATION

B.Sc. Information System

Injibara University | 2021 — 2025 (Expected) | Injibara, Ethiopia

- Coursework: Operating Systems, Database Design, Systems Analysis, UX/UI, Software Engineering, Data Structures
- President of the Web Dev Club (2023 — 2024)

KEY PROJECTS

AI-Powered Employee Recommendation System

Web Application | 2024 | React · Node.js · Express · PostgreSQL

- Built a full-stack web platform that uses AI to match candidates to open job roles based on skills, experience, and semantic similarity
- Implemented a recruiter dashboard and candidate profile pages with explainable scoring

Expense Tracker — Flutter App

Mobile Application | 2023 — 2024 | Flutter · Dart · SQLite

- Built a cross-platform mobile app for tracking daily expenses with categories, monthly charts, and offline local storage
- Designed in Figma first, then implemented with clean Material Design

Evaluation Management System

Web Application | 2023 | React · Node.js · Express · PostgreSQL

- Built a web app for managing student and instructor evaluations with role-based access, feedback forms, and admin reporting

Library Management — Database Documentation

Database Design | 2022 — 2023 | MySQL · ER Diagrams

- Designed a complete MySQL schema for a library management system — books, members, loans, fines. Normalized to 3NF with full system documentation

SKILLS

Frontend: React, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST API design

Database: PostgreSQL, MySQL, schema design, normalization

Mobile: Flutter, Dart

Design: Figma, UX/UI design, wireframing, prototyping

Foundations: Operating Systems, Git, GitHub, VS Code, Docker (basics)

LANGUAGES

Amharic (Native) · **English** (Professional Working)

INTERESTS

AI Integration · Open-source · Mobile UX · Continuous Learning · Tech Community
